

Certificate

The Institute for Consultancy, Research, System Planning and Packaging certifies, that the coating

"PROLAN HEAVY GRADE"

of the company

PROLAN Ltd.

RD2 Tauranga, New Zealand,

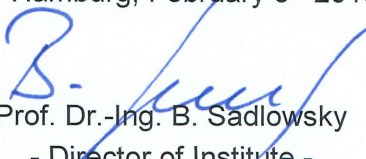

has been tested 30d in neutral salt spray according to DIN EN ISO 9227:2017.
Afterwards an assessment to surface according to DIN EN ISO 4628-3:2016
has been conducted.

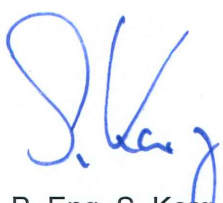

The certificate is based on our test report no. 3394/18 from 30.01.2019.

The findings of the test report refer only to the test samples.

This certificate remains valid as long as the coating is manufactured in an unchanged way. Any amendment to the approved product or a product component, e.g. in terms of the manufacturer, the manufacturing process, etc. implies a retesting by the BFSV Institute.
