

G19 INSTRUCTIONS:

BATTERY INSTALLATION:

Turn the tailcap in a counterclockwise direction to remove the cap.

Place one AAA battery into the light, positive end of the battery first.

Replace the tail cap and turn it clockwise to tighten it until it is fully closed.

Note: The G19 in clam pack packaging comes with batteries pre-installed.

ON/OFF OPERATION:

The G19 has a rear switch on the tail cap.

To turn on the light, press the switch fully until it "clicks."

To turn off the light, press the switch a second time, until it "clicks."

MAINTENANCE:

Wipe the external body with a damp cloth. Do not submerge.
